ASAG Member Name: Irene Langweil

ASAG Member Phone: 202.267.3338

Guidance and Policy must be submitted with separate CR coversheets.

Policy

Or

Procurement Guidance

Real Estate Guidance

Other Guidance

Summary of Change: This policy change establishes the Test and Evaluation Master Plan (TEMP) as a required AMS document. It integrates the TEMP into the investment analysis and solution implementation AMS lifecycle phases.

Reason for Change: These changes are driven by the need to establish the Test and Evaluation Master Plan (TEMP) as a required AMS document. To implement the practices in the V&V Guidelines Document, a TEMP should be required in policy to establish and manage the program's baseline test strategy. A required TEMP is a best practice in government/industry and is critical to a well managed acquisition.

Development, Review, and Concurrence: Verification & Validation Strategies and Practices Branch (ANG-E5A) and Independent Safety Assessment Team (AJI-321) review.

Target Audience: Test Teams, Service Organizations

Briefing Planned: Yes.

ASAG Responsibilities: Review and comment.

Section / Text Location: FAA Lifecycle Management Process Flowchart - Test and Evaluation for Initial Investment Analysis, Final Investment Analysis, and Solution Implementation

FAA Lifecycle Management Process Flowchart - Test and Evaluation Overview for Initial Investment Analysis, Final Investment Analysis, and Solution Implementation

add new document

Test and Evaluation Master Plan (TEMP)
