Reason for Change: Current guidance is not in sync with actual process. This proposed modification provides a remedy.

Development, Review, and Concurrence: The change to guidance was reviewed with AJW-2 (Director (A)), AJW-23 management, and AJW-23 EOSH subject matter experts. In addition, the changes are consistent with what is briefed at all IDA workshops sponsored by AJA. **Note: The guidance change was briefed at the December AEB meeting and approved.**

Target Audience: The target audience is acquisition program offices for new and emerging systems that traverse the AMS lifecycle. The modifications should not levy any new requirements, per se; instead, the modifications are intended to provide clarity to the processes being used by AJW-23 with acquisition program offices.
