Policy OR Guidance: Guidance

Affected Section/Text Location: ISPD page 2 of cover pages and Section 7.1 (SRM)

Summary of Change: Includes section 7.1 in the Initial ISPD and adds software assurance level based on AMS 4.12 requirement.

Reason for Change: Provide visibility of important safety considerations earlier in the acquisition lifecycle, particularly the development assurance level which could be a determining factor in the alternatives selected at IID. Section 7.1 would now be included in the Initial ISPD. References to FAA order numbers are updated and removed invalid verbiage. SRMGSA is added as an additional guidance source, since this is the primary source for SRM guidance in AMS.

Development, Review, and Concurrence: AJI

As a result of their review, the ASAG identified additional changes to the signature page of the ISPD.

Target Audience: Organizations dealing with acquisitions that affect the NAS

Potential Links in FAST for the Change: Link stays the same.

Other Documents that may be Affected: Policy Section 1.2.15 AMS Lifecycle Management Documentation, Appendix B ISPD Approval, and the V&V Guidelines Document.

Attachments: Redline and final.

Briefing Planned: Yes.

ASAG Responsibilities: Review and comment. Comments were provided by the ASAG and incorporated into the ISPD signature page.
