## **SECTIONS ADDED:**

Acquisition Management Policy:

**Section 3.6.3.6.1 : Waste Management** [\[New Content\]](#)

## **SECTIONS ADDED:**

**Acquisition Management Policy:**

**Section 3.6.3.6.1 : Waste Management**

Contractors must comply with the waste reduction and reporting requirements set forth in Executive Orders 13423 and 13514 with regard to increasing the diversion of non-hazardous solid waste, Construction and Demolition (C&D) debris, and organic and compostable materials from the waste stream. Waste management will further be accomplished through employing source reduction strategies (such as purchasing items that require less packaging materials during shipping) and reducing printing paper use. Waste management factors must be considered, to the maximum extent practicable, in acquisitions where their application would be meaningful and consistent with meeting FAA requirements. These factors must be identified in the procurement planning and Screening Information Request (SIR) contract documents.
