

6.1 Introduction Revised 1/2015

6.1 Introduction Revised 1/2015

In order to accomplish agency mission objectives and goals, FAA uses a competency-based model to provide structure and logic for the learning and development of its acquisition professionals. The competencies required to be obtained by the Real Estate Contracting Officer/Specialist (RECO/Realty Specialist) were originally identified in 2000 and were revised in 2013 to include expanded descriptions of the performance indicators (PIs) required for successful functional performance. For more information on competencies and PIs see the [RECO Acquisitions Professions Portal](#). These PIs have been incorporated into three progressive levels of competencies at the FAA. For more information please see the portal. Curriculum and experience requirements are aligned with the competencies to define each of the three levels of FAA RECO/Realty Specialist certification (i.e. Level I, Level II and Level III) and also in accordance with Section 5 Acquisition Career Program of AMS policy. On a limited case-by-case basis, waivers for additional time to complete certification requirements may be granted. Waivers must be coordinated with the Acquisition Career Manager.

The FAA Acquisition Executive (FAE) delegates contracting authority to procurement and real estate Contracting Officers (COs) through a warrant. This warrant authorizes the employee to legally bind the FAA. Certification serves as the foundation for awarding warrants, as it ensures competence, experience and training requirements have been met and validated; therefore warrants for Level II and III are given after the RECO's manager determines the RECO/Realty Specialist has completed the appropriate level of certification. There is no warrant issued for achieving Level I certification.
