## Summary of Change:

Relocating the FAA Systems Engineering Manual onto the NAS EA Portal. The requested change is to change the link currently on FAST to direct users to the EA Portal (will be a behind-the-scenes change that is seamless to the user).

## Reason for Change:

ANG-B is tasked with maintaining the FAA Systems Engineering Manual. The document will be placed on the NAS EA Portal, a source for FAA systems engineering artifacts, and will be updated the SEM on an annual basis. The EA Portal is under ANG-B's purview making this easier to update and upload versions of the document. ANG-B is requesting that the link on FAST.faa.gov be modified to direct users to the current version of the FAA SEM on the NAS EA Portal.

## Development, Review, and Concurrence:

The FAA SEM updates were sent out to systems engineers throughout the FAA. Comments were collected, incorporated, or mitigated as necessary. There are no outstanding non-concurs on the FAA SEM.

## Target Audience:

Engineers

**Briefing Planned:** Yes.

**ASAG Responsibilities:** Review and comment.

## Section / Text Location:

<http://fast.faa.gov/SystemEngineering.cfm>

link to the Publications page of the NAS EA Portal at <https://nasea.faa.gov/publications/main>

**The redline version must be a comparison with the current published FAST version.**

I confirm I used the latest published version to create this change / redline
